Quickcut: Advertisements can be supplied via Quickcut. For more information on delivery, phone (02) 9938 7500 or at www.quickcut.com.au. When supplying advertising material via Quickcut, please ensure that the cover date and magazine name is entered. This will assist with keeping track of your advertisement.

High resolution PDF: Files must have all images at 300dpi with fonts embedded and supplied on CD.

Electronic art: To ensure correct output of your files, only MAC files created from the following programs can be accepted.

Software: QuarkXpress 4.1, Photoshop 6, Illustrator 9 (we do not accept: any material sent via email, Word, Coreldraw, Excel, Powerpoint, Indesign or any other PC software or film). **Hardware:** CD's (Macintosh discs).

Resolution: 300dpi at 100% scaling for images. **Colour:** All colours to be process CMYK breakdowns, including QuarkXpress, Illustrator and Photoshop files. **Fonts:** We do not accept True Type Fonts. Include all printer and screen fonts.

Proof of advertisement: For accurate reproduction all advertising material (either via Quickcut or CD) must be accompanied by a 3DAP approved proof. No responsibility will be taken for colour reproduction when a 3DAP proof is not supplied. To find out more about 3DAP guidelines, please visit their website www.3dap.com.au

FPCMagazines cannot guarantee reproduction if material does not conform to the above specifications.

A fee will be charged for material supplied incorrectly to the above specifications and if FPCMagazines is required to make alterations or corrections.

Material supplied without a 3DAP proof will be proofed by FPCMagazines and the cost billed to the advertiser.
